

Genesis 1 (Second Draft)

In the beginning there was
only God

Just God
Nothing else

**No time no space no energy
no matter**

But it did matter

To God

So God created

Something out of
nothing

God created

Time
and space
and energy
and particles

$$F_g = Gm_1m_2/r^2$$

And God created

$$c = 299,792,458 \text{ m/sec}$$

$$E = mc^2$$

The laws for this universe

$$PV = nRT$$

$$F_1(AA+aa) \Rightarrow F_2(AA, 2Aa, aa)$$

$$F = dp/dt$$

$$dU = \delta Q - \delta W$$

**And there was neither night
nor day**

Then energy became light

And God saw that the light was
good

This was the first day

Three minutes long

**Then the matter came
together**

And became nebulae and stars

and exploding novae

And this was the second day

Two billion years long

**And God saw
that it was good**

**Then came bodies of liquid
and gas**

**And bodies of solid rock
with water and air**

**And these bodies rotated
from dark into light**

Another day

Six billion years long

Then in a special place
The waters became rich

And out of this richness came life

And this life divided and
multiplied and transformed

And God saw
that it was good

And this was one more day

Three billion years long

Then the waters brought forth
swarms of living creatures

**Tiny floaters became
small swimmers,
and seaweeds,
and fish**

And Earth rotated from dark
into light

A fifth day

One hundred seventy five million years long

Then life crept unto the land

And grew out of the ground

And sprang into the air

There became earthworms
and ants and snails and birds

And there became ferns and
flowers and grasses

And alligators and lions and
rabbits and apes

And God saw that it was good

Then this universe became
aware of itself

An ape looked up
and saw the stars

And thought
And wondered

And
It is said
God told
these humans

Take care of things

And God saw everything that had happened

**And behold
It was very good**

A child's artwork depicting the Earth's rotation from dark to light. The central focus is a large, dark, textured circular shape representing the Earth, with the word "HEAVENS" written in yellow on its left side. The Earth is surrounded by various colorful elements: a red tomato, a green leafy vegetable, a purple vegetable, and a yellow circle. The background is dark, with white and red scribbles on the right side. The overall composition is a collage of various materials and colors, including blue, green, red, purple, and yellow, arranged in a circular pattern around the central Earth shape. The text "And the earth rotated from dark into light" is overlaid in white on the dark background.

**And the earth rotated from
dark into light**

**The sixth
day**

**Four hundred million years
long**

**Now God rests and enjoys
This
The seventh day**

Five million years long

So far

Not The End . . .

... but a Beginning
